ProStyle E Straight Attachment
Operating Manual

Important

The medical device meets all the requirements of the European Directive concerning medical devices. Any use other than that for which this device is intended is prohibited and may prove dangerous.

Warranty

Each Lare Research Profile E Straight Attachment is warranted against defects in materials and workmanship for a period of 2 years from the date of purchase.

Advisable of use for, in accordance with the instructions of the bur manufacturer. Never use a bur with an incorrect diameter, as there is a risk of becoming detached during treatment and causing injury to yourself, to your patient and to third parties.

Spare material from products used for maintenance (lubricants, cleaning products and disinfectants) originating from the contra-angle may penetrate into the electric motor and interfere with its functioning. It is essential to follow the maintenance instructions accompanying each product. Never lubricate the electric motor.

Recommendations

It is essential to use dry, purified compressed air in order to ensure the long working life of the device. Maintain the quality of the air and water by regular maintenance of the compressor and filtration systems. The use of unfiltered hard water will lead to early blockage of the tubes, connectors and spray ports.

The device must not be used in the presence of open lesions, injury to soft tissue or recent surgery. The exhaust from the propel may penetrate into the wounds and cause infections and risk embolism. Adhere to the instructions for use, in accordance with the instructions of the bur manufacturer.

The device is intended for medical treatment only. any use other than that for which this product is intended is unauthorized and may be dangerous. The medical device meets all the current legal requirements.

Transport and storage conditions

Temperature between -40°C (-40°F) and 70°C (158°F), relative humidity between 10% and 100%, atmospheric pressure 50 kPa to 106 kPa (7.3 to 15.3 psi)

Information

The technical specifications, illustration and dimensions contained in these instructions are given only as a guide. They may not be the subject of any claim. The manufacturer reserves the right to make technical improvements to its equipment, without amending these instructions. For all additional information, please contact Lare Research directly at 1-888-333-8440.

Other precautions for use

The device must be used by a qualified person in accordance with the current legal provisions concerning industrial safety, health and accident prevention measures, and the working instructions. In accordance with these requirements, the operators:

- must only use operating devices that are in perfect working order.
- in the event of irregular functioning, excessive vibration, abnormal heating or other signs indicating malfunction of the device, the work must be stopped immediately; in this case, contact repair center.
- must ensure that the device is used only for the purpose for which it is intended, must protect themselves, their patients and third parties from any danger and must avoid contamination through the use of the product.

Rest the device on a suitable support to avoid risks of infection for yourself, the patient or third parties.

Excuse material from products used for treatment (detergents, cleaning products and disinfectants) originating from the contra-angle may penetrate into the electric motor and interfere with its functioning. It is essential to follow the maintenance instructions accompanying each product. Never lubricate the electric motor.
